

I am writing to express my concern over the proposal to replace the current FM translator service with the LPFM service. My family would be deeply affected if this change were to be made. We listen to positive programming on KLOVE in Portland, Oregon, 88.7, 92.9, 104.0. We turn to these stations because the music offered is positive and encouraging. This can not be found anywhere else on the radio dial.

My family needs these positive influences to fuel their attitudes while their resting at home or running errands or hanging out with their friends.

The local community would be adversely affected if these stations were no longer available. We see every day how negative influences affect our societies behavior and KLOVE offers one of the very few positive ones that we can turn to. Please don't erase these positive influences by replacing the current translator service.

Sincerely,

Shelby Hedrick
